TELEGRAPH.

Expressly for The Morning Herald by Western Union Line.

Midnight Report.

ELECTION IN VIRGINIA.

IMPORTANT ORDER OF THE SECRETARY OF THE TREASURY.

NO MORE FIVE CENT STAMP CURRENCY.

ARRIVAL OF THE SECRETARY OF THE SOUTHERN CONFEDERACY IN PARIS.

REBEL EMISSARYS IN CANADA.

ACCIDENT ON THE M. & O R R

MUTINY AT MORRIS ISLAND!

New York, July 24.

The Herald's Washington special says the municipal election at Fredericksburg, Va., last week, resulted in the success of the most bitter secessionist in the city.

The elections in Virginia afford little encouragement to hope for an early settlement of the difficulties which the suppression of armed rebellion left to be conciliated. Whenever and wherever an opportunity affords, the citizens of that State manifest a disposition to retain or place in power, those famous for their complicity in the rebellion.

It is understood that Mosby intended to run for Congress in his district.

The Secretary of the Treasury has ordered that no more of the five-cent postage stamp currency shall be issued.

No decision has yet been made in regard to the Commissioners of Pensions.

I. R. Holloway is still discharging the duties, and but little is said in reference to the appointment of his successor.

The World says that the Government takes formal possession of Ford's Theatre on Monday. Everything there is being packed for removal. The Government is to pay a certain amount to J. R. Ford to the 1st of February, and it is believed that then Congress has made no appropriation for the purchase of it, the theatre will be returned to Mr. Ford.

Judah P. Benjamin, late rebel Secretary of State, it is understood on good authority, has arrived safely in Paris, by way of Nassau. He intends to make his future home in Australia.

New York, July 24.

A Herald correspondent says that Mason, the rebel minister to England, has gone to St. Catharine, Canada, to reside, and all the rebel emissaries propose to come back to Canada.

New York, July 24.

A Herald correspondent says that of the 3,000 men employed at the Springfield National Armory during the war, over 2,000 have been discharged. While the war lasted, $150,000 were required monthly to pay the wages of the workmen employed, and one hundred and fifty guns were turned out daily. No more of the old celebrated pattern of Springfield muskets are to be manufactured, 220,000 of them being stored in the arsenal, and 50,000 of them were recently sent to Columbus, Ohio.

New York, July 24.

During the proceedings, recently, in the U. S. District Court, the condemnation of the property of the rebel emissary Slidell's property in that city, a claim for 21,000 francs was put in by the Paris Banking House, Maillard & Co., and 100,000 francs by the Bank of New Orleans, for the money advanced to the trustee on mortgage. Judge Bushnell decided that Slidell was an enemy to the government, and that the claims could not be allowed or entertained.

Cincinnati, July 24.

The eastern bound mail on the M. & O. Railroad met with an accident on Friday, near Hillsburg station, by the washing away of a culvert. The engineer was drowned, but none of the passengers were injured.

The accident on the Central Ohio Railroad was caused by the breaking of an engine wheel.—Eight discharged soldiers of the Seventeenth Ohio, and one citizen were instantly killed.

New York, July 24.

The steamer Lydia Bilings has arrived with Savannah dates to the 20th.

The Savannah Herald's Orangeburg, S. C., correspondent says that place is yet mostly lying in ashes. General Bartwell is commanding that post. The railroad is being rapidly repaired. Laborers are receiving $12 per month. The crops are in fine condition. All the towns in South Carolina are, or soon will be, occupied by the national troops.

The Charleston Courier of the 18th, says the 165th New York Volunteers, who were removed to Morris Island for taking part in the disturbances in the city, "have exhibited a mutinous spirit since their removal. General Gilmore sent an order demanding the colors of the regiment, but the Colonel refused to give them up. He was placed under arrest and the colors demanded of the second officer in command. He too refused, when General Hatch explaining that his conduct would be mutiny, he promised to deliver the colors. The delivery was made, when it was discovered that only the staffs and covers had been delivered. It was then determined to disarm the whole regiment. After the troops were brought forward, and cannon charged with grape and canister trained upon the mutinous troops, and the order given to fire upon them in case any resistance was offered, the Zouaves, seeing all further opposition was useless, quietly stacked their arms and marched under guard to Fort Sumter, there to expiate their crime.

Another steamer left Savannah for Augusta on the 19th, loaded with head-boards and other freight for the National Cemetery at Andersonville.

The 22d Iowa have been mustered out, and will start for home as soon as transportation can be obtained. 170 of the 24th left Savannah for Boston on the 18th.

New York, July 24.

The steamer Liberty brings Havana dates to the 20th, and Vera Cruz to the 14th.

The Vera Cruz Revista says the forces under Gens. Megia, Brincovest and Jeanningron ordered to operate against Negreta, taking a separate road, failed to make the connection, and Negreta, learning their intention, retreated on the Motelova road, sending one thousand men in the direction of Tomantipam. Jeanningron followed closely in pursuit of Negreta, skirmishing with his rear guard, but returned to Saltillo, and here took possession of Monterey, leaving the foreign legion at Saltillo. Magia was still at Matamoras. Officers and soldiers continue to arrive at Havana from St Domingo. The health of Havana is good.

Philadelphia July 24.

The balance of the 7-30 loan, amounting to about fifteen millions of dollars, has been issued, and will probably be closed out to-day. Orders will be filled as received until the remaining balance is exhausted.

Fortress Monroe, July 22.

A U. S. steamer was wrecked on the bar off Morehead city, on the 21st inst., and twenty persons are reported to be lost or missing. Captain Jackson was in command of the steamer, and has on board, three hundred and fifty soldiers, most of whom were landed on shore.

FINANCIAL AND COMMERCIAL.

TITUSVILLE WHOLESALE MARKET.

OFFICE OF THE MORNING HERALD,
Titusville, Monday Eve., July 24, 1865.

Provisions and Groceries remain dull, and but little doing. Oats have declined about 5c per bushel. We quote as follows:

FLOUR—The market remains very firm and active. Sales at $8 00@9 00; XXX White $9 75 @10 00.

CORN—Scarce at $1 00; $1 10 asked.

OATS—5c better. In store 70c; car load on track 65@60c.

FEED—Chop, per 100 lbs, $3 00; Bran $2 00, Hay $1 50@2 00.

WHISKY—Quiet at former prices.

PORK—Mess Pork dull. Sales at $20 00@21 00.

MESS BEEF—Steady at $16 00@21 00.

SMOKED MEATS—Sugar cured hams very scarce and high, having advanced to 26@30c; dry salted 24@26c. Dried Beef 22@24c.

LARD—Very firm at 22@25c.

BUTTER—Choice Dairy 30c; lower grades 27 @28c.

EGGS—Firm at 23@25c, latter the retail price.

GROCERIES—Market firm at former prices. Sugars have slightly advanced. Teas very firm.

COFFEE—Rio 35@37c Java 38@40c.

SUGARS—Firm and active. Muscavado 14@ 16c; Porto Rico 14@16c; Hard White 22@24c; Soft do 20@22½c.

MOLASSES—Muscavado 70@90c; New Orleans $1 10@1 25. Syrups 80@$1 25.

TEAS—Young Hyson $1 40@1 95; Gunpowder and Imperial $1 10@2 00, Oolongs 90@$1 25.

SPICES—Slightly declined, but steady.

FOREIGN FRUITS—Very firm and higher. Raisins (new layers) $7 00@7 25; do M. R. $6 50@ 6 75. Lemons scarce at $23 00@24 00; Prunes 25@30c

DRIED FRUITS—Dull.

CANNED FRUIT—Dull. Peaches $1 50@3 50, Tomatoes $3 00@$1 50.

FISH—Very firm and prices nominal.

POTATOES—Old scarce at 55@60c; new $2 25 @3 00.

FOREIGN LIQUORS—Higher, having advanced 50c per gallon within the last ten days.

PETROLEUM MARKETS.

At the Petroleum Stock Board in New York, Saturday evening, Pithole Creek sold at $15; Excelsior $2 20, Germania 15c; Heydrick $6; Oil Creek $7 20; Rynd Farm $1 10, and United States $30 25.

There is little doing in Petroleum in this market, the wretched condition of the roads making it almost impossible for teamsters to get to and from the wells. Teamsters who a week since were taking from six to eight barrels at a load, are now taking out only three to five, and very few are willing to go with that number, preferring to rest their teams and wait for dry roads. The receipts reported to-day amount to only 83 barrels, and the shipments over the Oil Creek Railroad 500 barrels crude. Prices unchanged. We quote:

Crude at Well, on Creek	5 00@5 25
Crude at Pithole,	3 00@3 25
Crude at Titusville,	6.00@6 10
Crude at Titusville, (Bids included)	10.00@10.25
Refined Free, " "	60@65
Refined in Bond, " "	42@45
Naphtha,	None offered
Refined Oil Barrels,	3.00@3 25
Crude Oil Barrels,	2.50@2.75
Hauling to the point, from Creek,	1,75
" " Pithole	3 00@3 50
COAL.	
Coal, Anthracite,	14 00@15 00
" Bituminous,	13.00@14 00
" Blacksmith's,	14 00@17 00
Lime,	2 00@2 50
Water,	3 25
Calcined Plaster,	5.00
Brick,	12.00

[Special to Morning Herald.]

Funkville, July 24.

Crude oil $7 00.

[Special to the Morning Herald.]

PETROLEUM CENTRE, July 24.

Crude at wells dull at $5 00. No sales.

[Special to Morning Herald.

Tarr Farm, July 24.

Oil at the wells very dull at $5 00.

[Special to Morning Herald.]

Oil City, July 24.

Crude oil unchanged. Heavy shipments are being made on account of the high water, in the river and creek.

TUESDAY, JULY 21, 1863.

De Bow Applies for Pardon.

This is Summer and the season for rainbows. How beautifully a double one recently spanned the basin in which our town is located is known to all the residents thereof. Other bows there are however, and among them one of southern origin. Without intending to pun, we refer to Mr. J. D. *De Bow* of rebel notoriety.—This gentleman has made his *bow* to the authorities at Washington as a humble suppliant, if humility can ever find a lodging place in the heart of pride. He was formerly employed by the government in taking the census of the United States, and was the editor of the Southern Review. Like Madry, he was possessed with the delusion that he was a man of great importance; he became truculent, and finally cast his lot with those who ultimately fed upon the husks. Some of our readers may remember his periodical, and the laudatory notice it contained of a poem written by a certain Mr. Grayson of South Carolina entitled the "Hireling and the Slave," the burden of which was a labored attempt to exalt the slave above the free laboring men of this and other lands. This notice appeared about the time of Fremont's nomination for the Presidency. And Mr De Bow poor fellow has come to his senses at last, having applied to President Johnson, a man who sprung from the class intended to be ridiculed and maligned in said poem, for a pardon a few days since. There is nothing like hard knocks to crumble theories to pieces, especially such as are built upon a denial of the reasonable rights of men. Theories have been the bane of the South, and even the facts that were dealt with in that region, were divested of their practical character and whatever was repulsive in them, in order to gratify the system mongers. These theories have been melted, to use a figure of speech, in the hot crucible of war, and the schlag, to use another figure, has been cast off in the dead form of slavery. Very likely Mr. De Bow will be pardoned. Then he can turn his talents and his acquired skill in statistical condensation to another sort of census—the census of the *dead*. Yes, he can arrange in regular tabular form, the number of revolted States, how much money was raised to equip armies in order to destroy the condoning government, how many false statements were made to inflame the passions of the South, how many liberty loving citizens were maltreated and cast into rebel prisons, how many men were compelled to enter the Confederate army; what number perished in the field of battle, how many died of sickness in camp and on the march, the number of widows he and his friends have made, the number of orphans bewailing the fate of their parents; the mansions and farm houses destroyed, the amount of hay, grain tobacco, rice and cotton, utterly ruined, the railroads, bridges and canals, torn up, burned and destroyed, how many heavily freighted ships have blazed upon the ocean, how many sailors have perished by shipwreck or in naval encounters, how many women have been transformed into absolute demons; how many poor negroes have been obliged to labor and to die in building fortifications to perpetuate their own bondage, and finally how many men have sinned against nature and against God in trying to establish a government which was at variance with all divine and all just human laws. Nor should he neglect to tell about the poor Union prisoners who perished by the thousands. Would it not be a just punishment to oblige him to collect the facts and prepare the census of the dead?

Miscellaneous Items.

—The famous camp-meeting ground at Martha's Vineyard has been bought for twelve hundred dollars by a camp meeting association.

—The Fairmount Water Works in Philadelphia are to be extended, an appropriation of half a million dollars having been made for that purpose.

—It is said that the shipbuilders of Waldoboro, Me., intend to put up this summer at least ten vessels, from ships down to schooners.

—Newspapers are springing up in all directions along the railroad lines in East and Middle Tennessee, the only routes along which mails are now carried with regularity.

—There is a fund of $5000 in Baltimore, to meet actual necessities existing among the soldiers and widows of soldiers of the war of 1812, who may be at this time residents of the city.

—A man at Taunton, Mass., who received a sun stroke a week ago, and has since been confined to his bed, has been gradually growing deaf, and is now unable to hear the loudest sounds.

—Two immense castings have just been made in East Boston, one, a propeller, weighing 17,000 pounds, for a sloop of war; the other, weighing 32,000 pounds, for the steam frigate Franklin.

—There are 269 men connected with the Boston Paid Fire Department, and their pay for 1864 was $69,078, the whole cost of the department for that year being $132,841. The men were called out 167 times last year.

—Dr. Henry G. Clark, formerly city physician of Boston, has recovered six thousand seven hundred dollars damages for injuries received by falling upon ice in that city. He sued for twenty thousand dollars.

—There is an establishment at Jonesboro', Me., in which 5000 lobsters are cooked daily, and forty thousand pounds of the meat are daily put up in air-tight cans of one and two pounds each. One hundred and twenty persons are engaged in catching the fish and sealing the cans.

VOLUNTARY CORRESPONDENCE from all parts of the Oil Regions, more especially that relating the discovery and production of Oil, and the development of Oil Lands, is respectfully solicited. We want facts, brief and to the point, but no anonymous communications.

A POST OFFICE will be opened at Pithole city on Wednesday of this week. The announcement that it was to go into operation yesterday, was premature.

JAMES G. CLARK, the poet vocalist, is to be present at the Teachers' State Convention, to be held at Meadville, the first week in August. He has been invited for the purpose of entertaining the Convention with some of his original ballads.

Two foreigners were ejected from the passenger train going to Shaffer yesterday morning, because they refused to pay fare. They fought and struggled, but ineffectually, and were compelled to work their passage on foot.

BORED WATER WELLS.—We notice that Mr. Suggett, the patentee of the celebrated Bored Water Well, is in town and offers to dispose of a limited number of rights for counties and States. He may be found for a day or two at the McCray House. jul25-2d.

DROP LETTERS.—Under a recent regulation of the Post-office Department, the postage on drop letters will hereafter be but *one cent*. One cent stamps may again be obtained at the Post-office.

THOSE little Wild Men from Borneo, who exhibited here a few weeks ago, returned last evening, accompanied by their agent, Mr. H. Harvey. They have completed their tour of the oil region, not excepting Pithole, and intend to stop a few days in Titusville before returning to their native country. Due notice will be given of their first exhibition.

STREET FIGHT.—An exciting melee occurred in front of the Pendleton House, on Saturday, between two boys and a hack driver. The difficulty arose from the refusal of the boys to pay the fare demanded by the driver. The latter assaulted one of the boys and the other retaliated by throwing a huge stone, which struck the driver upon the head, injuring him severely.—A lively chase ensued, but the offender was not captured.

SEED BAGGING ABANDONED WELLS.—A circular has been issued from Funkville, calling a meeting on Thursday, August 1st, at 2 o'clock, P. M., at the office of the McElheny Oil Co., Funkville, the object of which will be to consider the propriety of seed-bagging the abandoned wells on the McElheny farm. This is a matter of considerable importance to all parties interested, and will elicit general attention.

AS a proof of the commercial value and importance of the new analine colors, the product of coal oil, it is stated that a single French company has manufactured $1,200,000 worth of them in the past two years. They have supplanted quite a number of substances employed as dies from time immemorial. Some of the aniline colors, especially aniline blue, are sold for their weight in silver, even as in old times the Tyrian purple was sold for its weight in gold.

THE largest income returned by any individual in the 22d Congressional District is made by Mr. William Reed, of the Second Ward, Pittsburgh, amounting to $240,000.

Mr. Reed was the fortunate possessor of one half of the celebrated Reed Well on Cherry Run. The well being a large one and a constant producer, made a fortune for Mr. Reed, when they parted friends by the sale of his interest.

He is now engaged sinking several wells on his account, and we hope he may return a great if not a greater income next year.

ROUTE OF THE PLANK ROAD.—Yesterday morning the work of constructing the Titusville and Pithole Plank Road was begun, a force of nearly one hundred men being employed under competent supervision. The following is an extract from the ordinance passed at the last meeting of the Borough Council:

That the right and privilege be granted to the Titusville and Pithole Plank Road Association to construct and lay down a Plank Road along Pine Street, from the eastern boundary line of said Borough to the junction of said street, with the Oil Creek Railroad, and also that the said Association be granted the right and privilege to construct and lay down a Plank Road along Monroe street, from Pine street, to the Oil Creek Railroad.

2. And it is further enacted and ordained by the Burgess and Council of the Borough of Titusville, that that portion of Main street situate, being and lying between the east line of Martin street and west boundary line of land owned by the Watson Petroleum Company, also so much of Drake street lying and being between Pine street and Walnut street, and also all that part of Walnut street situate, being and lying between Martin and Drake streets, are hereby declared public by-ways of the borough.

OIL STOCKS DEPRECIATED?—Oil stocks have depreciated, says the Pittsburgh Commercial, not so much in consequence of the change from a state of war to peace as simply because of an excessive inflation, and over-speculation, which, however, could not perhaps have occurred but for the abundance of money which the war caused. The bubble was pierced on the cessation of hostilities, and many holders, under the impression that we were returning to a specie basis, soon threw their stocks on the market, and this, in connection with the discovery of numerous fraudulent and bogus companies, created a panic which caused an indiscriminate slaughter of both good and bad. The discovery was also made that many of these companies were controlled by good men—well enough disposed, but immensely ignorant of the business of mining oil, and their places are now being vacated and filled by practical men, under whose management it is believed that many companies now very low in the market, can be made to pay good dividends. The smaller wells will, in many cases, have to suspend, until the unjust tax of one dollar per barrel imposed by the last Congress upon crude oil, without reference to value or location, is modified.

The petroleum business may be said to be still in its infancy, and valuable territory has been injured by bad management, and much money has been lost by certain parties, got up, like Finder's ravens, to sell. Occasionally we hear of cases or more of these concerns exploding. These frauds have the effect of inducing investors to do what they always should have done before parchasing, to make the same inquiry they would in buying bank, insurance, or any other class of stocks. We have in our columns frequently cautioned our readers against indiscriminate purchases, but perhaps with little effect—experience alone being the only teacher heeded in this as in other cases.

From Pithole.

PITHOLE, July 22, 1865.

Editors Morning Herald:

I have just returned from an oleaginous tour of inspection among the wells and innumerable derricks of Pithole. The United States well is destined to be thrown in the shade. In my opinion it has seen its best days, although it now will run probably seven hundred barrels per day. We have a well which has been running some six weeks with the sucker rods undrawn, and this morning they were taken out. Of course the increase was very great. It is estimated that this well, known as Twin Well No. 2, is giving at least one-third more than the United States well, making it nearly a thousand barrel well. The other wells in this vicinity are increasing. The Island well, just above the Homestead, is increasing its flow, and it is estimated to be giving out nearly nine hundred barrels. Several new wells between the United States and Homestead wells are down and will be soon tubed and tested.

Interests are rapidly changing hands, and the speculation in sixteenths is raging equal to the time when Cherry Run interests were selling by the same fractional interests. The prices of town lots are very high and are likely to remain so for some time to come. The large hotel erected by Mr. Patchen will soon be ready to accommodate to some extent the masses that continually arrive. But when the Morey Farm Hotel is completed, it is believed that all out-doors can come in and be accommodated with perfect ease. The gentlemanly host, Charles G. Marsh, Esq., has the faculty which all hotel keepers should have, i. e. to please, and I constantly hear expressions of astonishment at his ability to accommodate the numbers that stop there. Five hundred meals were prepared in one day, and in the small farm house which now constitutes the hotel. Governor Fenton and three of his staff took dinner at this hotel on Wednesday, having come to take a survey of this region. After the Governor's return from his visit to the wells, he expressed himself highly pleased and interested by his visit.

The Hoosier well, at the upper end of the Ball farm, is being put down to a greater depth, and from the indications which this well has already given by the great quantity of gas and oil, it is believed it will yet be a large flowing well. The territory around this well has fully as good indications as that in the vicinity of the United States well, and there is no doubt but that of some of the many wells going down we shall soon hear of good strikes in that locality.

The Twin Well No. 1, near the United States well, is still flowing with sucker rods in, and it is believed this will yield equal to Twin No. 2 when they are withdrawn.

Another new well, above the United States, on lease No. 77, has commenced flowing to-day, and is estimated to yield about 75 barrels and in creasing. We can expect to hear of more in this vicinity the coming week, as a few are nearly ready for testing, with a splendid show.

On the Morey farm, on Marsh Run, lying between Pithole and Little Pithole, several wells are down about 650 feet. No wells have been tubed here as yet, but it is thought from the indications, that some good wells will be obtained there.

On Little Pithole, on the Paxton farm, some of the best shows of oil I have ever seen have been found, and the indications are good for good producing wells. This farm lies about one mile from the United States well, and interests which are now at a reasonable figure, will no doubt be very materially advanced in a few days. For men of moderate means here is a good place for investment while interests are held at a reasonable figure. The McCausland well, three miles above, is yielding oil worth $30 per barrel, some of the time flowing.

But I will close, promising to furnish you next week with whatever news of importance I may find interesting. R. A. D.

From Another Correspondent.

PITHOLE, July 22, 1865.

Editors Morning Herald:

After a week's absence, I am comfortably ensconced in my old quarters at the Morey Hotel, of which C. G. Marsh, an ex-harbor master of New York, and an old friend of mine, is proprietor, and keeps the best house in this vicinity.—Speaking of the Morey Hotel, reminds me of the Monroe House, at which I stopped coming through Titusville. To say that mine host of this establishment is a perfect gentleman, and can "keep a hotel, would be but a faint praise. As a poet says—"When death's stream I travel o'er, a time surely shall come; in Heaven I will wish for nothing more than Major Mills' welcome."

During my absence from this place, I find that great changes have been made. Speculation is on the increase, strangers are constantly arriving and are leasing a patch of ground, and commencing wells, which they hope and expect will be flowing ones. The shady nooks around the United States swarm with business men, and I think it is perfectly safe to say that a larger amount of out-door cash business is transacted here daily, than in any other county in Northern Pennsylvania. I find that my old friend, Simeon Leland, proprietor of the Metropolitan Hotel in New York, has the oil fever worse than ever, and that he has made a most favorable lease with the United States Company, to put down a well in twenty-five days, on their property; and N. B. Miller, Esq., his partner and business manager, and the patentee, Mr. Atwood, with the engine, tools and fixtures, all of a superior quality, have arrived on the spot, and are to commence operations immediately. They have the wealth, energy and enterprise for anything that they undertake. If, with the new and improved machinery, they succeed with the same degree of success, in proportion to their increased advantages, they will put the old fashioned mode of drilling to oil out of fashion.

The new town fairly keeps pace with the excitement of which it seems to be the centre, and in a short time I understand a theatre, with a good stock company, is to be inaugurated here. Where is Barnum, that he does not rebuild his Museum in this place? Is he afraid that the oil, speculators can out-general him in humbug? If the hotel accommodations in this place would only keep pace with the increase of business, Pithole city would soon become the fifth town of real business importance in the State. Let some of the surplus hotel keepers in Corry and Titusville take the hint, and act accordingly.

OBSERVER.

NATIONAL LYRICS.—We have received from Ticknor & Field the second little volume of their "Companion Poets for the People." It is "National Lyrics," by John G. Whittier. The volume contains over a hundred pages, and a score of illustrations. Everybody knows and appreciates Whittier, and it is not necessary to expatiate on either his patriotism, his poetic talent, or his deserved popularity. Here is his "Laus Deo," on the announcement of the passage of the Constitutional Amendment abolishing slavery:

It is done!
Clang of bell and roar of gun
Send the tidings up and down.
How the belfries rock and reel,
How the great guns, peal on peal,
Fling the joy from town to town!

Ring, O bells!
Every stroke exulting tells
Of the buried hour of crime.
Loud and long that all may hear,
Ring for every listening ear
Of Eternity and Time!

Let us kneel:
God's own voice is in that peal,
And this spot is holy ground.
Lord, forgive us! What are we,
That our eyes this glory see,
That our ears have heard the sound!

For the Lord
On the whirlwind is abroad;
In the earthquake he has spoken;
He has smitten with his thunder
The iron walls asunder
And the gates of brass are broken!

Loud and long
Lift the old exulting song,
Sing with Miriam by the sea:
He has cast the mighty down;
Horse and rider sink and drown;
He has triumphed gloriously!

It is done!
In the circuit of the sun
Shall the sound thereof go forth.
It shall bid the sad rejoice,
It shall give the dumb a voice,
It shall bolt with joy the earth!

Ring and swing
Bells of joy! on morning's wing
Send the song of praise abroad;
With a sound of broken chains,
Tell the nations that He reigns,
Who alone is Lord and God!

ALL IN A NUTSHELL.—H. H. H., the regular Titusville correspondent of the Erie Dispatch, thus epitomizes current events in this prosperous borough:

Progression is the order of the day. Already we have four finished churches, and two more under construction, a Collegiate Institute in a flourishing condition, a plank road projected, and surveys being made for an additional railroad from here to Pithole, we understand. The books for a gas, and also for a water company, are now about to be opened. Five brick blocks have been erected; more are being built. We have a well patronized theatre, race course, gambling houses, boot-blacks, pea-nut merchants—all the necessary adjuncts of a thriving city, as well as a goodly number of the obscene and unnecessary. Menageries and circuses are of frequent occurrence, and side shows too numerous to mention. Our hotel accommodations are now more ample than at any former period. We boast of a number of the last—mere drinking shanties. Our private houses are crowded with boarders. Manufacturing interests are much as yet, except in iron and refining oil we are doing but little. Lastly, thrown not least, we lead our rival towns, in the support of a daily paper—one of the strongest proofs of our prosperity. To sum the matter up, we conclude Titusville is leading all rival towns that are springing into existence in the oil regions, and what is more encouraging, we are backed up by any amount of capital required, nor do we lack for the best business talent in the country, and today we think the prospects for a populous city here are brighter than any day since Col. Drake struck oil at the Pioneer Well.

CARVERS

NEW DOUBLE ACTING

AIR PUMP.

WE have just completed arrangements with the Patentees of the improved pump for the introduction into the Oil Regions of Pennsylvania. This pump is double acting, throwing the oil at both the upward and downward strokes of the piston, and producing nearly double the amount of oil than by the common pump. It also requires far less power than the common pump to produce a greater amount of oil. The

WATER BARREL

furnishes an escape for the surplus gas and thus enables the pump to work without being affected thereby, and thus saves the breaking of piston rods destroying of valves, burning of sand lines and tubing by the force of the gas. The suction or drafts of these pumps is not only much greater than that of any other pump, but is also

CONTINUOUS,

(not being broken or checked by the DOWNWARD STROKE OF THE PISTON) and has a power to draw the oil from the crevices into the well, unequalled by any other pump or ejector now in use. These pumps can be seen at our office over the Petroleum Bank, in Titusville, Pa., and opposite the

HOOSIER WELL,

on Pithole Creek. BURTIS, HART & CO.

VAN AMBURGH & Co. in again appearing before the people of America, desire to state that their present Menagerie contains AN ENTIRE NEW

Collection of Animals

that were captured by or under the immediate supervision and direction of the great

Van Amburgh Himself

And are the products of an expedition to

The Icy Regions of the North Pole, The Pampas of South America, The Deserts of Africa, And the Jungles of Asia.

All of which were caused to contribute the choicest specimen of Animated Nature to be found within their respective realms. They arrived in N. Y. late in the Fall of 1863, where an unparalleled and most triumphant success awaited them. Flushed with new laurels of success, a travelling paraphernalia was designed of the most transcendant magnificence possible to conceive which through their immense resources, sprang into existence as if by magic.

Cages of the most gorgeous description; Wagons of the most costly character; Harness of surpassing beauty and elegance; Horses of the best Arabian blood; Mammoth variegated Canvas of immense proportion; And an entire retinue of unequalled excellence are here to be seen.

Human intellect could not in its grandest moment of conception originate anything more grand and dazzling to behold. The veritable Van Amburgh, (whom envious persons from his long absence from America have taken advantage, and caused the press to announce his decease,) will accompany the exhibition and head the TRIUMPHAL PROCESSION on its entrance to the place of exhibition which will represent in oriental splendor

A Moving Panorama

Nearly one mile in length.

VAN AMBURGH

The Original Lion and Tiger Tamer.

The following list was taken from the living animals themselves in the Company's Building, 539 & 541 Broadway, N. Y., on the 1st of March, and therefore may be considered

A Correct List of Animals:

Professor Lamoureby's Performing Animals—African Lion, Asiatic Lion, Brazilian Tiger, Senegal Leopard, Asiatic Lioness and Spotted Tiger.

Treating especially

DEAFNESS,

CATARRH,

And diseases of the

EYE, EAR AND THROAT.

Where he can be consulted until

TUESDAY, JULY 26th, 1865.

(From the N. Y. Home Journal, June 4th.)

In every business or profession, indeed in every department of science or skill, there is always some acknowledged head—some one who stands out in bold relief among his fellows as a sort of tender. In the study and treatment of Deafness and Catarrh, as special diseases, Dr. Lighthill, of this city, occupies just the position above described. He has devoted years of labor to this specialty, and is now reaping the reward of his industry. The editorial columns of the Tribune, of a recent date, bear witness to the Doctor's success in this department of medicine. We quote the paragraph:

CURE OF A DEAF MUTE.—Louis Loewenstein, a lad 14 years of age, born in Germany, came to this city when he was about two years old. Soon after his arrival here he was taken sick and lost his hearing. By degrees he became first deaf and then dumb. For nearly ten years he was a mute, unable to hear the loudest voice or to articulate a word. About one year ago he was placed by his parents in the hands of Dr. Lighthill, who has so far succeeded in restoring to him his lost powers of hearing and utterance, that he can converse with those who speak to him distinctly and deliberately. During the last four or five months he has been under the tuition of Mr. Beumekie, and has made considerable progress in reading and arithmetic.

Having been supplied with the lad's address, we further investigated the matter, and discovered that previous to calling on Dr. Lighthill, the youth's case was considered hopeless, and he was for two years an inmate of the Deaf and Dumb Asylum. The Rev. John Nott, D. D., Professor in Union College, Schenectady, in a published letter tenders his gratitude to Dr. Lighthill for treating successfully his case of deafness. Rev. Frederick S. Jewell, Professor at the State Normal School at Albany, also testifies to having been cured of Catarrh. Dr. Lighthill possesses other testimonials and tributes to his talents, from some of our wealthiest and most prominent and respected citizens, which may be seen on application. It would be difficult to speak in any but terms of praise of this treatment in the face of the many proofs and facts testifying to his success.

From the Rev. B. T. Welch, formerly Pastor of the Pearl St. Baptist Church, Albany, N. Y.

NEWTONVILLE, Nov. 10, 1865.

DR. LIGHTHILL—Dear Sir:—Allow me to express my grateful thanks for the skill and kind attention rendered to my daughter, whose ears have been badly affected for many years and for some months past has been nearly deprived of hearing. The loss of this important sense is certainly a sad deprivation, painfully embarassing, and to a degree known only to those who have experienced it. If, therefore, there be a remedy for this great evil, the cause of humanity obviously requires that it should be universally disseminated. I feel it my duty therefore, and it affords me much pleasure, to give my testimony to the happy effects of your treatment and remedies. My daughter has suffered from deafness since early childhood. The left ear has been badly diseased. The right ear, also, for several years, was seriously affected, and the disease apparently increasing, threatening the entire loss of hearing. It was with extreme difficulty that she could participate in the conversation of her friends, and for two years has been deprived of this source of social enjoyment. Happily my attention was directed to your advertisement, and I was induced to place her in your care. Your treatment, under care of a kind Providence, has been successful. Her hearing, so far as I can judge, appears to be perfectly restored. Whether this restoration is permanent is a question time alone can determine, but present results are certainly very gratifying.

I am, dear sir,
Truly and gratefully yours,
B. T. WELCH, D. D.

From Rev. Fred. S. Jewell, Professor of the State Normal School, Albany, N. Y.

DR. LIGHTHILL—Dear Sir—Under date of March 14, I sent you a careful statement of my case, my former treatment, my failure to obtain relief in that direction, my resort to your treatment and its beneficial results.

I have been, from the winter of the year 1844, subject to violent periodical attacks of catarrh, marked by febrile symptoms, violent inflammation of the living membrane of the cavities of the head, accompanied in the first stages by a watery discharge from the nose, subsequently becoming acrid and yellow and towards the close of the attack purulent and bloody. These attacks produced a most distressing species of headache, occurring periodically each day for a period varying from one to three weeks, sometimes so violent as to incapacitate me for business, and confine me to my bed. At times the attendant inflammation would extend to the teeth, produce toothache, or to the throat occasioning hoarseness and partial loss of voice; and twice within the last few years it has so affected the right eye as to confine me for weeks at a time to a darkened room.

I had tried medicines and applications of various kinds; snuffs and other catarrhal preparations of some half dozen kinds; applications to the head of camphor, ginger, and hot fomentation of different kinds; and in connection with these the usual emetics and cathartics employed to induce counteraction. But none of those had produced any permanent improvement, and in the few instances in which temporary relief was afforded, it was at the expense of so much strength as to leave me greatly exhausted. Under these circumstances I was led, though with some reluctance, from the supposed incurability of the disease, to make a trial of your treatment. I found it soon even beyond my hopes, reaching the disease as it had never been reached before, and alleviating its symptoms to an extent which I had supposed impossible. At the time when I gave you my former certificate, while I did not feel assured of a complete cure, I had obtained a material relief which amply repaid me for my trial of your treatment, and which satisfied me that that treatment was as effective as it was simple and philosophical. A substantial escape from my old attacks of catarrh, for the almost unprecedented period of nearly half a year, that in spite of severe attacks of illness, which would have formerly rendered such an occurrence impossible, was, to me, proof of an important success. But now six months since I sent you that statement, and while it is unpleasant for me to appear thus constantly, and in this guise, before the public, it seems to me a matter of simple justice to yourself and to those who may be suffering as I was, to add that I am not only as fully satisfied as to the utility and efficacy of your treatment of catarrh as I was six months ago, but I am now of the belief that there is such a thing as a cure for CHRONIC CATARRH, in my case a substantial cure has been effected. FREDERICK S. JEWELL, Professor State Normal School.

Albany, N. Y., Sept. 1, 1864. 3d18m*
